

Practice at Northcutt

Presented 11-6-2015

There will be two ways members of Gem City may work their dogs at our Northcutt facility.

1. **During class time:** Members in any venue may train at Northcutt during times when classes are being held if there is a free ring available.
 - a. Those working their dogs may not disrupt classes being conducted and if the instructor feels that there is a disruption, people will be asked to leave.
 - b. Members who are training in the free rings observe the 15 minute time rule when there are other members waiting to practice (this is per person, not per dog).
 - c. When classes are over, all individuals must leave the building with the instructor(s).
 - d. Posted rules must be followed.

2. **Open Training:** Current Security Code Holders may call an open practice at Northcutt when needed. The Security Code holder must post this on the Yahoo group and such posting will be passed onto the general membership by the membership coordinator. The message must state the “from” and “to” hours the building will be open and the date it will be open. The Security Code Holder is responsible for opening and closing the building. All members practicing must exit the building when the Security Code Holder leaves. No open practice time for the general membership will be held unless it is posted to the general membership. If a member violates these rules they may be subject to losing their security code privilege.

Rules:

1. No one may reset the thermostat.
2. Posted rules for the turf room must be followed:
 - a. *No food or drink on the turf other than water and training treats.*
 - b. *Training treats must not be crumbly. All remnants must be picked up from the turf.*
 - c. *All dogs not working must be crated in the turf room or attached to a person by a leash 6 feet or shorter.*
 - d. *All accidents must be cleaned immediately by using posted directions.*
 - e. *When finished with practice, all pieces of equipment must be placed back to their original position.*
3. Posted rules for opening and closing the building must be followed.
4. Gem City members only may work their dogs at this time.
5. Everyone working their dog, must sign in.
6. There may not be solo practice. Everyone must have another member along.
7. When the code-holder leaves the building, everyone must leave the building.
