Maintenance Improvements John Clifford

New back door is on order, it will be on the alarm system and the bar to come into the building will be disabled

Getting a quote on fixing the lighting, insulation and getting the ducts painted in the building

Purchasing 5 new light fixtures for the outside wall

Improving the muddy grass area, 4 out of 5 drain tiles not being used so the downspouts dump into the grass. 4 downspouts were plugged into the drain tile, 1 is missing the drain tile so a plastic downspout will be added

A new variable speed blower was placed on the HVAC unit, this has resulted in reducing the noise issues in the turf room. Set on auto, the fan should not be on all the time.

We will be getting quotes for getting the parking lot repaired

Looking for members who have some expertise in plumbing, electrical or any type of maintenance to help with some projects.
